

AGC releases “AGC Integrated Report 2023”

Tokyo, July 3, 2023 - AGC (Headquarters: Tokyo; President: Yoshinori Hirai), a world-leading manufacturer of glass, chemicals and high-tech materials, has released the AGC Integrated Report 2023 (English version).

The “AGC Integrated Report” introduces its shareholders, investors, and various other stakeholders to the AGC Group’s management approach and initiatives to enhance corporate value. Through this report, the AGC Group communicates its long-term corporate activities and aims to continuously enhance its corporate value through a constructive dialogue with shareholders, investors, and other stakeholders.

Features of “AGC Integrated Report 2023”

- With messages from the management team, it describes the long-term management strategy, “Vision 2030” and the progress of the medium-term management plan **AGC plus-2023** toward its realization from both financial and non-financial perspectives.
- With interviews with employees and messages from outside directors, it introduces the economic and social value created by each business; technological development, human resources, and environmental initiatives that underpin sustainability management; the evolution of AGC’s corporate governance, etc.
- Discloses the impact of climate change-related opportunities and risks on the Group’s business activities in accordance with the TCFD Framework*.

This report can be downloaded from the AGC Group’s corporate website.
